

VARANASI SIVA RAMA KRISHNA

AI | Machine Learning | Data Science

+91 9391861893 | sivaramkrishna2410@gmail.com | [GitHub: VSR-Krishna](#) | [LinkedIn: Sivaram1024](#)

OBJECTIVE

Final-year B.Tech Data Science student with a strong foundation in AI/ML, mathematical modelling, and Python programming. Experienced in analysing complex problems, designing model-based solutions, and applying modern AI/ML techniques to real-world business domains. Seeking an AI/ML role where I can contribute analytically, build explainable models, and continuously grow with evolving technologies.

EDUCATION

B.Tech – Data Science | Aditya College Of Engineering And Technology, Kakinada

2023 – 2027

Current CGPA: 7.78 / 10.0 (Ongoing)

TECHNICAL SKILLS

Programming: Python (primary), C, Java, HTML/CSS

AI / ML: NumPy, Pandas, Matplotlib

Data & BI Tools: Excel, Power BI, Power Automate, SharePoint, Snowflake, Tableau

Databases: MySQL, MongoDB | **Dev Tools:** Git, GitHub, VS Code, Jupyter Notebook, Postman API

CORE COMPETENCIES

- Analyse a given problem, decompose into sub-problems, and produce mathematical/statistical models as solutions
- Fine-tune existing ML models and define/refine requirements for problem statements
- Python programming with software engineering discipline; adaptable to any business domain or tech stack
- Externally recognised: Oracle GenAI Certified | Snowpro Associate | Deloitte Analytics Simulation | IBM SkillsBuild

INTERSHIP EXPERIENCE

Data Specialist Intern – Technical Hub Pvt. Ltd.

May – Jun 2025

- Built data pipelines and applied analytical models to optimise operational workflows and derive actionable business insights
- Translated business requirements into data-driven solutions; collaborated cross-functionally on automation projects
- Applied mathematical modelling techniques to identify patterns and support data-backed decision-making

Data Analytics Intern – SmartInternz (APSCHE Govt.-recognised)

Jul – Aug 2025

- Focused on data analytics with Tableau — developed interactive dashboards and statistical storytelling outputs
- Applied analytical thinking to transform complex data patterns into clear, business-relevant recommendations
- Gained hands-on exposure to end-to-end analytics workflows: data ingestion, transformation, visualisation, and reporting

PROJECTS

CodeRadar – Automated Student Performance Analytics Tools: Excel, Power Automate, SharePoint, Outlook

- Designed a weighted KPI mathematical model to compute performance scores, detect trends, and rank students automatically
- Automated threshold-based email alerts via Power Automate; built Power BI dashboards for real-time visual insights
- Applied conditional logic and data modelling to highlight performance gaps and enable proactive academic interventions

Internship Management System – Workflow Automation Tools: Excel, Power Automate, SharePoint, Outlook

- Modelled the approval workflow as a state machine; integrated Excel, SharePoint, and Outlook for end-to-end automation
- Improved efficiency and transparency of internship tracking for students and faculty with fully audit-ready records
- Designed solution architecture to ensure scalability, data integrity, and role-based access across the institution

CERTIFICATIONS & EXTERNAL RECOGNITION

- Oracle Certified Professional – Generative AI on Oracle Cloud Infrastructure — [View Certificate](#)
- Snowpro Associate Platform Certification – Snowflake — [View Certificate](#)
- Data Analytics Job Simulation Certificate – Deloitte — [View Certificate](#)
- Getting Started with Data – IBM SkillsBuild — [View Certificate](#)
- Microsoft Certified: Power Platform Developer Associate — [View Certificate](#)
